THE RIFLE

Model M100

Use Factor M Staples™ • 4 cartridges per load • 100 staple magazine
6"x 1"x 6" wire staples • 13 gauge steel

Factor M Staples™ Specs.

- 13 gauge wire 1018 stiffness
- 25 staples per cartridge
- Double wire welded
- Length = 6 inches
- Width = 1 inch

“The Rifle” staple gun is the most reliable cartridge stapling system on earth. Constructed of steel with an open design, getting staples in and out of the gun is easy as 1-2-3.

The precision of the “Factor M” cartridge along with a thinner, yet stiffer wire allows for rapid penetration of the staple even through ice and frozen ground. With 100 staples per load you save an amazing amount of time not having to load single staples by hand.

YOUR WORK JUST GOT A LOT EASIER
